MANY GARDENS IN POSSEY, VANDERBURGH, AND WARRICK COUNTIES ARE NURTURED BY THE MASTER GARDENERS FOR THE BENEFIT OF THE COMMUNITY.

To provide education to the public, they host a biennial Fall Gardening Conference and a biennial Plant Sale. Every year, they host a Garden Walk, their 20+ community gardens, which funds materials needed for gardening topics and workshops on a variety of pest problems, and lead classes on disease plant and vegetable identification, teach and work with food pantries.

They host a biennial Garden Walk to find college scholarships, and a biennial fall Gardening Conference to fund college scholarships.
Master Gardeners are from all walks of life. They are eager to share best practices and gardening information with people in their community to promote healthy landscapes, healthy foods, and healthy lives. They have completed a Master Gardener training course, which covers a broad spectrum of horticultural topics including plant and soil science; disease, insect and weed identification; and culture of horticultural plants.

SWIMSA's mission is to educate members and the general public on horticultural techniques, demonstrate proper gardening, tree and lawn care, and pest control. They provide a service to the community through improving the environment, helping others to build and maintain gardens, and empower the community to a healthy lifestyle through gardening.
